Comments about the TA:
(Text/Memo)

- Amazing job! Very easy to follow during discussion, handouts and example problems were very helpful, always willing to stay after to answer questions or explain over email to the best of his ability!
- Extremely helpful, very friendly guy
- I could not imagine not having a TA for this course. Jared helped me with literally so much, and I would not have the grade I have now without his help. You can tell that he has a passion for what he is teaching, he is organized, he is helpful, and he is willing to work with you, even if you can't make the time he has set up. I would have to say that Jared is the best TA I have ever had in my entire college career, and I wish that there were a whole bunch more of Jareds to be my TAs in my other Econ courses.
- This is the first year this course has had a TA. I think having a discussion section has been extremely helpful and has contributed to a lot of the success students are having in this class. Having as great of a TA as we did has helped as well. As a fifth year senior, I have taken many courses on this campus that require a TA. Jared has been an absolutely phenomenal TA and I would put him in the top 3 of TA's I have had here. He puts forth a lot of effort to make sure we are understanding concepts and asks many thought provoking questions during section. He explains concepts in various ways to cater to different learning styles. I'm very grateful to have had him as our TA!
- ya done did good.
- Excellent job, section handouts were extremely helpful and you were always willing to answer questions and help. Thanks
- You can tell Jared really enjoys these topics and does a good job transferring that energy to his students. He is engaging, funny, and makes a very dry topic somewhat interesting!
- Discussions helped clarify difficult concepts and enhanced material learned in lecture
